

Victory Keys to Safety Pre-Deployment

Steps to Success in Rail Loading

1. Plan
2. Prepare
3. Execute
4. Supervise

Every Leader and Soldier must maintain strict situational awareness during rail load operations! Commanders must ensure that every Leader Plans, Prepares, Executes and Supervises railroad operations to the most stringent standard, without fail! All Soldiers participating in rail load operations will review Victory Safety Key #2004-01 (Rail Ops Safety), Bell Sends #25-05 (Rail Car Electrocution) and Army Europe rail head training & verification program power point presentation, located on the V Corps Safety website, at <http://www.vcorps.army.mil/Safety/default.htm>. If further assistance is required on rail head operations safety, contact the V Corps Safety Office via e-mail: vcorpssafety@hq.c5.army.mil.

Victory!

RICARDO S. SANCHEZ
Lieutenant General, USA
Commanding
